

Tri-Star Recycling

49 Ashford Drive, Yourtown

Dear Mechanical Engineer,

The project you set out to do here has been accomplished to our complete satisfaction. As you know, Tri-Star's long-term plan dictates that we no longer maintain a Mechanical Engineer in a full-time position, but will offer periodic consultation contracts.

If you are interested in these let me know, but we expect that someone with your personal initiative will soon discover more challenging positions. When you find something that interests you I will be pleased to provide you with an excellent reference.

Sincerely,

Paula Browne
President
