

Dear Fish and Wildlife Officer;

As you are aware the provincial department minister announced deep cuts recently. It is with much regret that I have to inform you that your position is being affected and your employment terminated. Your name has been placed on a redundancy list. It is most regrettable as you have performed your duties admirably. You learned quickly. Everyone in the department enjoyed working with you. Members of the committee on which you have served have mentioned on numerous occasions the contributions you made to the work of the committee. You were singled out for your excellent organizational, technical and communication skills. They have also mentioned how much they appreciated having someone from the community who is well respected, who is involved in community life through coaching and your team work skills.

I do hope that you will be able to find a position in another division or department. As you know the cuts are government wide and I appreciate your desire to remain in this community. I will be delighted to recommend you should a position become available. I wish you the very best in your future endeavours.
