

WORLDWIDe

TELECOMMUNICATIONS

will be interviewing new
graduates for exciting
entry level positions in
Telecommunications.

Worldwide is the market leader and we are looking for the people who will keep us competitive as we enter the twenty-first century. We are presently hiring

Masters of Engineering

qualified to be junior members of our product design and development team.

Excellent teamworking and communications skills and creative flair with a solid technical background are essential. We offer on-the-job training sessions on a continuing basis and opportunities for advancement for those who have the right stuff.

Are you ready to work with the world's biggest?

Our representatives will be visiting campuses nationwide for the next two months. To schedule an appointment for interview please call 522-785-2000.
