

Lab Assistant.

Secure a place in the future of Biological Technology.

Zenith Environmental Research and Consulting

is leading the way in new environmentally-sound technologies for application in industrial settings.

Experienced Agricultural and Aquaculture Laboratory Assistants are sought in particular.

Applicant must be able to assist in biological, microbiological and biochemical tests, and laboratory analysis of water and soil.

This position is ideally suited to an energetic and self-motivated individual who is able to work independently and with teams. Completion of a one to two-year college program in agriculture, biology, or microbiology is required and any experience assisting in a laboratory or field setting would be an asset.

We offer flexible hours to employees who are pursuing studies relevant to our field and may be able to offer some course credits subject to approval by your educational institution.
