

- Northstar Engineering Consulting Group is the project manager for the Star LakeTownsite and National Park Development.
- We are presently accepting applications from
- GEOMATICS
- TECHNICIANS AND
- TECHNOLOGISTS
- who are willing and able to work
- in rough terrain.

Applicants must be certified Geomatics Technicians or Technologists with a minimum of one year experience in the field, and a high level of competency in Geographical Information Systems and Global Positioning Systems. On-site accommodations are very basic and all teams will work ten days on ten days off with transportation expenses paid. This is a major development slated to take at least three years after which time candidates may be assigned to other projects.
