

KALTECH RESEARCH ASSOCIATES

KALTECH RESEARCH ASSOCIATES

is currently seeking a

# LAB TECHNICIAN

*Kaltech Research is North America's leading agricultural research institute dedicated to the continuing technological advancement of the agricultural industry. As pioneers in the field of biotechnology, we strive to help growers remain competitive and profitable at home, while contributing to the growth of community-based agricultural projects in developing nations.*

The successful candidate will assist our researchers in the study and development of disease-resistant varieties of indigenous plant species. Working under the direction of the research scientists, responsibilities will include conducting and monitoring experiments, collecting and collating data, analyzing, and reporting results.

The successful candidate will have:

- Bachelor of Science in Biology or Microbiology.
- At least two years related experience.
- Excellent technical, interpersonal, and communication skills.
- Hands-on experience in agriculture is a definite advantage.

Please submit résumé to Human Resources Director Kaltech Research Associates, P.O. Box 432, Station C, Sweet Springs.
