

SMALL BUSINESS FOR SALE

the **Plant Doctor** is retiring

and looking for the right person to buy out my small but thriving business of providing gardening and houseplant doctoring services using safe natural methods.

EQUIPMENT AND SUPPLIES:

A reliable heavy duty pick-up truck.

Professional quality roto-tiller, wheelbarrow, hand tools and sprayers.

Nursery equipment.

Small inventory of seed, bulbs, and environmentally safe pest controls.

Many of my clients are elderly, or house-bound for health reasons, and their gardens and houseplants are very important to them. **If you are a warm, responsible person who will continue my tradition of customer service** I will also sell my company name and my loyal client list. Many are on an established service schedule which you would inherit with my recommendation.

If you are the right person, financing can be arranged.

Please apply in writing with résumé and references to Denise Glass, the Plant Doctor, 220 Beech Place, Yourtown.
